same old crew for the working bee (less than 10 in total)  
it was a late start to the day with just over 300 riders signing on  
5 laps rnds 1 & 2 & reduced to 4 laps for the last round with 3 extra classes having to be split  
thanks for every ones patience today especially our loyal Lakes members  
lots of people there to help make the day work & a few whingers as well,  
thanks to the helpers & as for the the complaints,  
this is Lakes & we aim to provide as much riding in as possible  
if you don't like our rules or how we run the day  
don't come  
if anyone can tell me who opened up the pit fence to get out, it would be much appreciated  
we will find out who it was & memberships will be cancelled  
anyone caught opening, cutting or jumping fences will have their membership torn up  
anyway I had a good day as did, I think, most that were there

another successful Lakes Practice round awesome day & all done before 4:30 5 rounds for all  
groups only problem was we ran out of riders
