Great day with perfect track & weather conditions

numbers were down, to the point that the meeting was run at a loss,

however, the members that did attend, enjoyed a great track with the opportunity to practice the all new (not reinvigorated) stutter section

The not so friendly for all 5 x whoop section after corner 2 being replaced with 9 small "skip over" stutters

all classes enjoyed 4 x 20 min motos, with the last group finishing just before 3pm

Half price memberships from now
